ADDRESS FROM THE CHAIRMAN OF THE

ENOCRATIC STATE EXECUTIVE COMMITTEE. JACKSON, MISS., April 27th, 1868. to the Democratic Associations of the

State of Mississippi-GENTEMEN: -Some time since, the Execuwe Committee of the Democratic Party, lished a Constitution and By-laws recom mended by them, for general adoption. It is earnestly hoped that a thorough system of organization for the approaching election, is being adopted upon this plan. The political blects set forth in these documents, may e summed up in two words:

" Constitutional Liberty.

The utter disregard of the Constitution of he United States, and the total overthrow the Constitution of ten States, by the Reblican party, creates an imperative neessity for the people to proclaim anew the ist principles of the American system of government.

The political platform of the Republican party of this State, is the reverse of our own, and may be stated in two words also, to-

"CONSTITUTIONAL DESPOTISM."

The Military Convention now in session, are about to conclude their treasonable labors for the disfranchisement of all our most prominent and useful citizens. They have carried their proscription far beyond the dictation of the Radical Congress. Instead of a constitution for a free people, it is now or side and penalties for imaginary effences; is expost facto in its character; and throw. and under the Constitution of the United

The system of amalgamation, miscegenation and taxation, imposed by other provisions of this Constitution, not only corrupts the fountains of justice, but amounts to a total confiscation of all the property in the State. As the Radical party are to become the sole recipients of the pub-lic treasure, to be raised by this tyranical system,-to hold all the offices-receive all the emoluments—dispense all the revenue, and wear purple and fine linen every day, the expense of the taxable people of the State, they look upon these barbarous measures with the utmost complacency, and are already prepared to carry their designs into execution, by procuring a ratification of this Constitution at the ballot box. Their secret associations for this purpose now encompass the State, and they are playing for the dazzling prize with the despera-

The enemy passed in pursuance thereof. count the negro vote by thousands, and are holding out the most tempting bribes to the non-taxpaying voters. If these two elements are permitted to combine, your Constational liberty is forever at an end-Constitutional despotism forever in the as-cendant. This point reached, "war. pestilence and famine" are the natural concomitants.

There is time yet to avoid this approaching torrent of social, political and pecuniary ruin. The people still have a right to assemble and concert the necessary measures of defense. The Executive Committee have pointed out the means of accomplishing this result. The By-Laws of the Democratic Associations direct what is to be done-if these are promptly and successfully exe-

The re-action against the Radicals at the North, is progressing with great power and portenos the success of the Democratic candidate for the next Presideney. If we defeat the Radical Constitution now, and succeed in the Presidential contest, we will preserve our present Constitution and laws.

The committees and sub-committees to be appointed in the Police Districts of every county have important duties to perform. The chief labor of the canvass devolves on them, and their work should be speedily and thoroughly executed. These committees should be sufficient in numbers to enable them to see in person all the people in their neighborhoods within a few days at most and procure their signatures to the constitution and by-laws, together with a personal pledge to be active among the people and to be present at the polls and do all in their power to secure a unanimous the party and the protection of the public invote for the principles and candidates of the terest; to confer freely with all the people of their Districts in regard to the objects of this

It would be well to have one or more members of these committees on every farm or plantation, where they should unite with the freedmen in the preservation of order and domestic tranquility, and in the sup-pression of all secret political associations designed to sever the interests of the planter h. It shall be the further duty of these committees, and each member of this Association, to explain the objects of the Association to the people, to induce them to become active members of the same; and to establish entire unanimity of political sentiment and public policy, and to give legal expression and the result has been found. the result has been found in universal bankruptey and distress alike with the planter and the laborer, and indeed among all clas-

ses of society. These sad lessons teach us that the interwhen dissolved, mutual ruin stares them in the face and mocks them with fearful

The people will not fail to perceive that the mode of organization proposed, may be useful alike for political, agricultural and social purposes. The membership embraces all good citizens who are in favor of Constitutional government—the District Committees will include the influential men of all portions of the counties. Their duties will keep them in constant communion and good fellowship, and their meetings at the county site will enable them to know the exact condition of the country in all its political, agricultural and social aspects. It is an organization, not for the present alone, but for all time to come. It is based on the idea that Eternal Vigilance is the Price of Liberty"_

To the Democratic Associations of the State of Mississippi. At the late meeting of the Democratic Central Executive Committee of this State, the Chair was requested to prepare an appropriate

form of Party Organization for the examination and approval of the committee. The chair has performed this duty, and the committee have instructed him to give publicity to the following form of a Constitution and By-Laws to be adopted by all the Associations in the State. By so doing we will secure uniform and efficient action; the people will become familiar with the objects of the party, and it is believed will cordially approve of the same.

The organization of the Republicans in this State is secret and oath-bound, as we are informed. They secretly opperate on the ignorance, prejudices and passions of the negroes and betray them from their best friends and the true path of loyalty to the Constitution, and duty to the public. The organization proposed by this committee will place it in the power of the people to correct, in a great measure, this crying evil, and to defeat the malign object of this concealed band of conspirators against the constitutional liberties of the State. In free countries secret political combinations are the bane of all forms of public liberty. In Europe they were first reform of Party Organization for the examina-

public liberty. In Europe they were first resorted to by the oppressed to overthrow tyran-ny. In this country they are made to support a military despotism combined with a Con-gressional usurpation which threatens with unbridled 'power the overthrow of State Constitutions—the substitution therein of the African negro for the white race as the source of political power, substantial abolition of the Judicial and Executive Departments of the Federal government and the impeachment and removal of the President because he has followed in the federal of the President because he has followed in the footsteps of all his predeces-sors in sustaining the powers of the President as defined in the constitution and laws of the

African negroes under the baneful influence of oath-bound conspirators, may be made to sanction this fearful crime against themselves and the superior race on which they depend for all that is valuable in life. It is the mission of the Democratic party as now organized, to save them from political sui-cide and the government from absolute over-

Then let the lovers of liberty assemble, organize and prepare for the great work before them. There is a registered majority of seventeen thousand votes to overcome in this State it was that majority that elected the present mlitary convention by negro votes—they will soon put forth a Constitution for the disfranchisement, impoverishment and degradation of the white race—let the foreign invader and the domestic foe feel the power of those they seek to destroy.

JOHN D. FREEMAN, Chairman Executive Committee.

PRICES REDUCED TO SUIT THE TIMES time to come. It is based on the idea that "Eternal Vigilance is the Price of Liberty"—that the public servant is accountable to the people—that personal ambition and private interest must succumb to the public welfare—that public officers must be pure in heart and qualified in mind—that the Constitution must be maintained at every hazard, and that "justice must be done though the heavens do fall."

Fellow-citizens! We invoke you to arouse yourselves to action. The vital issues which are staked on the result, do not admit of apathy or delay. Not a moment is to be lost. You are again reminded that the lost. You are again reminded that the lost. You are again reminded that the lost.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and therapeuties. | They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the faculty in the whole world.
They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are appli-cable only to but a very few complaints. The most stringent laws exist, in France, with regard to the sale of medical preparations, and only those, which have undergone an examination by the Academy of Medicine, and have been proved efficacious, either in the Hospitals or in the practice of the first medical men, are authorized by the Government. This fact must be a guarantee, for the excellency ot Mess. GRIMAULT ET Co. medicines.
